

**Unit Title:** Checking And Maintaining Fluid Levels On A Car  
**Unit Level:** Entry 3  
**Unit Credit Value:** 1  
**GLH:** 10  
**LASER Unit Code:** WJC274  
**Ofqual Unit Code:** A/506/0863

This unit has 2 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to use appropriate materials and equipment safely.	1.1	Select and safely use for tasks: <ul style="list-style-type: none"> <li>• engine oil</li> <li>• brake and clutch fluid</li> <li>• water and screen wash</li> <li>• cloths or paper towels.</li> </ul>
2.	Be able to maintain fluid levels in a car engine.	2.1	Open bonnet, check engine temperature for safe operational maintenance.
		2.2	Locate the following: <ul style="list-style-type: none"> <li>• engine oil dip stick</li> <li>• oil filter cap</li> <li>• brake fluid reservoir</li> <li>• clutch fluid reservoir</li> <li>• coolant expansion tank</li> <li>• screen wash fluid containers.</li> </ul>
		2.3	Identify the fluid level indicators for: <ul style="list-style-type: none"> <li>• brake fluid reservoir</li> <li>• clutch fluid reservoir</li> <li>• coolant expansion tank</li> <li>• screen wash fluid containers.</li> </ul>
		2.4	Check all fluid levels top up to correct level relevant to fluid, following manufacturer's instructions.
